the truth was--her Baron was once no princeCassy's grandfather indulged in dear pastimes--playing "lord cT ,: Manor" and having Caught In A Dream a bet the ponies. Caught In A Dream either pleasures overreached his ability to aid them, and now the crunch had come--eviction from his Somerset estate.And even though Cassy hadn't the center to permit this, she definitely hadn't the money to avoid it. just one individual had the ability and the wealth to do that--her "no love lost" neighbor and landlord, Sir James Clayton.However, the maxim "There's no damage in asking" backfired. Sir James could help, yet what he sought after in go back used to be Caught In A Dream her!

a laugh little read. the most characters are so snobby and spoiled. I enjoyed it! It used to be like examining a historic (my favourite genre). they're off horseback using alongside the English geographical region and take grand excursions in their kinfolk estates. The hero is wealthy with a humongous ego and the heroine is a broke aristocrat who's conversant in being fawned over. I simply do not comprehend while or why they fell in love. They not often spend any time together. once they do, it really is entertaining. For instance, their final scene was once lovely. both as wonderful is the ice princess heroine's exploits and little outbursts (story is only from her POV). backside line: enjoyable read, yet lacks depthand no longer a lot of a love story.
