# Dead Men Tapping : The Dead Men Tapping : The End of the Heather Lynn II End of the Heather Lynn II

Kate Yeomans

The gripping real tale of a failed rescue and a tragedy at sea within the predawn darkness of September 5, 1996, the Heather Lynne II used to be struck by way of a barge and overturned in calm seas 10 miles off Cape Ann, Massachusetts. Trapped inside, 3 fishermen have been alive within the diesel-choked air pocket that saved the boat afloat. Onlookers waited for the Coast Guard, but if a Coast defend cutter arrived, it carried no Dead Men Tapping : The End of the Heather Lynn II divers. hours after the collision, rescue divers ultimately pulled the 3 males from the capsized vessel scant mins too late. Rescuers labored frantically to revive lifestyles through the airlift to a Boston hospital, yet on arrival, the lads have been declared dead, their shredded knuckles and fingertips mute proof of the horror in their final hours. useless males Tapping opens 4 years later in a federal courtroom, the place the victims' households are suing the united states Coast Guard. because the tale unfolds, we come to grasp the trapped fishermen, their community, their would-be rescuers, the Coast Guardsmen, and the staff of the tug and barge that ran down the Heather Lynne II. Dead Men Tapping : The End of the Heather Lynn II those usual people, doing what they suspect is their best, propel useless males Tapping to its heartbreaking conclusion. For photos, reviews, and more, stopover at [DeadMenTapping.com](http://DeadMenTapping.com)

A gripping account of a boating catastrophe that primarily closed down the fishing within the small beach Massachusetts city of Newburyport. Yeomans did an outstanding activity of recreating an afternoon that also haunts many fishermen in Gloucester the place I work. The 3 males of the Heather Lynne II Dead Men Tapping : The End of the Heather Lynn II drowned in 1996 after their fishing boat flipped the other way up whilst it used to be struck by way of a tugboat pulling a 272-foot barge approximately 10 miles off the coast of Gloucester. Fishermen who replied a decision for support may perhaps pay attention the workforce trapped within an air pocket within the hull begging for rescue. Many felt there has been not anything they can be do other than Dead Men Tapping : The End of the Heather Lynn II stay up for the USA Coast Guard. But it took it slow for USCG to muster its forces from Gloucester, might be too long. A helicopter was once despatched with a rescue swimmer with couldn't move underwater — the staff wasn't informed the boys have been trapped within the boat and never out within the water. Then the copter became again to Dead Men Tapping : The End of the Heather Lynn II Gloucester with no doing anything; it Dead Men Tapping : The End of the Heather Lynn II appeared to the ready fish boats under the rescue was once being abandoned. A dive group used to be referred to as in from a close-by city yet understood the operation will be one in all retrieval and never rescue. they did not carry the required apparatus at the copter, as the crucial details used to be by no means handed directly to the copter crew. Local skilled advertisement and salvage divers have been nearer yet have been by no means contacted. And nonetheless the boys tapped, begging for help. Yeomans contrasts the continuing rescue operations with related events at sea, the place a few issues went correct and others wrong, and with court docket room testimony from the USCG's personal research and from while the households sued over its actions. have been undesirable judgements made and or no motion taken while needed? Yes, yet did these judgements and actions, or lack there-off, make the placement

---

worse? The reader can decide. whereas the USCG solutions rescue calls in Gloucester all of the time, such a lot successfully, this example forged a pall over locals' religion in its dedication to its rescue mission. As Yeomans rates one fisherman, "You need to depend upon your self and feature a seaworthy vessel and be on you toes. since you understand you are going unlikely to get any form of support from the Coast Guard."However what could be such a lot haunting Dead Men Tapping : The End of the Heather Lynn II if you stick with the recent England fishing is the final chapter. The Heather Lynne II was once salvaged, renamed, then offered and renamed back to a tender Gloucester fisherman named Matt Dead Men Tapping : The End of the Heather Lynn II Russo who stated the boat's historical past did Dead Men Tapping : The End of the Heather Lynn II not hassle him. In 2004, after Yeoman's ebook went to press, he might promote the boat. Russo perished in 2009 while his state-of-art new fishing vessel, christened the Patriot, went down off heart financial institution off Gloucester less than mysterious conditions that eerily mimicked the Heather Lynne II tragedy. A tug transporting a barge used to be pointed out as having been touring an identical coordinates as Russo's vessel in advance of communique used to be misplaced with the boat. Its cable was once impounded for investigation, and in one more unusual similarity, the Coast protect used to be investigated for its behind schedule reaction — 2 0.5 hours — after the SOS report.The our bodies of Matteo Russo and his father, John Orlando, his team mate, have been recovered. the reason for the sinking was once by no means definitively determined.Even the USCG's Patriot file echoed its one at the Heather Lynne II tragedy: "delayed reaction as a result of terrible assortment and research of data and decision-making in regards to the vessel's status." i do know not less than one fisherman named during this booklet — Richard Burgess — remains to be at at the present time in January 2014. After studying "Dead males Tapping" and its harrowing stories of days at sea, and being acquainted with the Patriots story, i'm in awe that males (and women) nonetheless move all the way down to the ocean in ships day in, day out.
