The Last Voyage of the Karluk: Shipwreck and Rescue in the Arctic

Robert A. Bartlett

On January 4, 1914, the Karluk was once caught in ice while the ominous sound of the ship's stern being ripped open by way of pack ice was once heard by means of all on board. It gave the impression of the firing of a cannon. Bartlett instantly ordered provisions be unloaded at the ice. The Karluk started to get a divorce on January 10, and all on board have The Last Voyage of the Karluk: Shipwreck and Rescue in the Arctic been ordered to desert ship. While each person used to be correctly at the ice, the captain himself went again to his cabin and, all alone, positioned Chopin's Funeral March on his Victrola. Because the water rose within the cabin, he whispered "Goodbye," left the sinking vessel to the mournful sound of Chopin's song and moved quickly out at the ice. It used to be to be the start of 1 of the best feats of valour in global history.

The narration by way of Frank Holden was once so believable that I used to be absolutely sucked in. There aren't any pyrotechnics the following - only a reliable recounting of an unbelievable challenge. On the purely aspect the place additional tune was once brought (a Victrola recording of Chopin's Funeral March - which Bartlett performed because the send went underneath the ice) it used to be the entire extra relocating unlike the easy splendor with which the drama of the placement had unfolded.
