Rachel, the opposite Animorphs, and Ax have chanced on a brand new great weapon opposed to the Yeerks. it is simple to get. it really is lightweight. it really is quick oatmeal. It does not really break the aliens, yet its impression on them is so strong that the children recognize The Underground (Animorphs #17) they must attempt to use it. to aid decelerate the invasion. It capability one other journey right down to the Yeerk pool. And the opportunity of no longer with the ability to come back as much as the surface.

And let's introduce one other ethical conundrum: How some distance into savagery do you visit defeat the savage/villain? the pains the Animorphs are dealing with are usually not basically changing into extra real, but additionally changing into even more painful in that they're commencing to see the place the (gray) traces are drawn among doing sturdy for sturdy and doing undesirable for good. And to preempt that, how a lot accountability must you take for the lifetime of individual you have got simply kept from suicide? Overall, we additionally see extra aspects of Rachel. She is the gung-ho one that is usually asserting "Let's do it" - yet we see that she additionally says it whilst she does not wish to. Rather, she now additionally says it since it is what's anticipated of her. So frequently we fall into the jobs we fill in a group, and as soon as we are entrenched, it may be relatively not easy to wreck freed from the role. during this case, Rachel is not able to damage freed from her position because the go-to woman within the Animorphs group. However, she is ready to include it and stick with through. simply because sometimes, among the function you carry and what should be done, simply understanding what's anticipated of you may be adequate incentive to get you thru the instant and do what should be done, regardless of what. this is a great thing or a nasty thing, as we see during this book, and i'm yes we'll proceed to work out this during the series. One quote you cannot no longer observe from this book, and one of many extra strong "message" quotes: I'd like a contented Meal. With additional happy. and Everyone in a gaggle has a task to play. a minimum of that is the way it regularly works out. [...] occasionally it is tough to get out of a task as soon as you The Underground (Animorphs #17) have began taking part in the part. Quotes and commentaries: I powered again to the terrible suicide man [we had simply stored from a concrete-impact death]. even supposing by way of now I wasn't feeling sorry for him, The Underground (Animorphs #17) rather a lot as quite annoyed. I mean, what's it with humans killing themselves? How significant a moron should you be to determine that as least should you remain alive and feature a few hope, in place of being useless and having zero? -- web page 17 -- whereas most likely now not politically right (okay, probably not), it's a very simplified view of suicide. It reminds us that the Animorphs are kids, and regardless of being thrown into those very 'adult' situations, they could nonetheless have the simplified perspectives of teenagers. /Cassie's right. it is not politically right to name nuts nuts,/ Tobias said. Cassie checked out me. "You know, i'll swear I heard that poultry talking. i need to be nuts." - web page 29-30 -- although it sounds extra like a Marco reply, haha. /Is that one in every of you?/ Tobias cried from some distance away. Thanks be to one million years of evolution that has given the hawk its incredible eyes. Oh, yes, oh, yes, love these eyes. [...after Tobias will get The Underground (Animorphs #17) the tarantula attempting to devour Rachel] And from excessive

above I heard Tobias say, /Hmmm. no longer bad. no longer undesirable at all./ [...] /You imagine Tobias really ate that spider?/ Marco asked. /With banana relish,/ I said. -- web page 46-48 Cassie, Ax, and Tobias all simply stared. Tobias used to be his hawk self, and he can rather stare. Ax was once in his personal Andalite body, and he may perhaps stare with 4 eyes at once. -- web page 59 /We [Andalites] additionally comprehend that you just cannot win while you're no longer ready to be a bit ruthless. it is a query of balance. How some distance into savagery do you visit defeat the savage?/ [Ax said.] -- web page 60 -- i believe like this echoes anything Elfangor realized at the Taxxon domestic planet with Arbron. Or at least, he discovered over the process the Andalite Chronicles. i'm wondering if he's the person who handed The Underground (Animorphs #17) the lesson directly to Ax, rather than Ax studying it in school? /[...]We need to win,/ Tobias further grimly.] I laughed with none humor at all. i am lovely gung ho. in contrast to Cassie, not like Tobias perhaps, i am ruthless at The Underground (Animorphs #17) times. yet even i've got adequate feel to grasp the phrases "we need to win" are the 1st 4 steps at the street to hell. -- web page 64 I bet it was once a peculiar scene. Me, with this giant red-tailed hawk perched at the fringe of my desk. Sitting there within the glow of a unmarried lamp, whereas the remainder of my relations nonetheless slept. yet we did it plenty of mornings. every time Tobias controlled to discover an early breakfast and it wasn't raining. -- web page sixty nine -- How sweet. And he does not brain the mathematics The Underground (Animorphs #17) homework, either. right here we see that Tobias is additionally now not completely giving up at the extra mundane human such things as math. Plus, i believe we are pretty much constructing that Tobias and Rachel truly spend a great deal of time jointly outdoors of 'being Animorphs'. /Yes, this [fly] physique has no skill to manage physique temperature,/ Ax observed. /What a wierd idea. You people do many strange things./ /Ax, i do not believe we are precisely in charge for--/ /Yes, I know. i used to be trying to make a joke. A human-style joke./ /Great,/ Marco muttered. /Funny Yeerks and now a wannabe-funny Andalite./ -- web page 73(view spoiler)[ [Tobias moaned,] /You've acquired to be kidding! i am a bird. i've got no enterprise being in a tunnel./ -- web page 93 Everyone in a bunch has a task to play. at the least that is the way it consistently works out. [...] occasionally it really is difficult to get out of a job as soon as you might have all started enjoying the part. -- web page 108 Fortunately, i do know slightly approximately Andalite physiology. See, they devour and drink via their hooves. immediately the Visser used to be soaking up the water of the Yeerk pool. -- web page 153 -- Hm. And the following i assumed that the Andalites may opt for even if to be 'eating' at any given time? It relatively would not make feel for them to 'always be eating' - I mean, i cannot think that the dirt and stuff at the flooring of spaceships is all that beneficial. So this rather is not a topic for the Visser... I kicked the barrels [of rapid maple and ginger oatmeal] into the pool, simply so Marco could not probably miss. Then Cassie went off to unfastened the others. The Hork-Bajir, the Taxxons, and the human-Controllers have been nonetheless busy being very, very still. If any of them had proven initiative, they can have most likely taken us The Underground (Animorphs #17) out. they could good were capable of get Marco prior to he may well hit one of many barrels. But you recognize what? Terrified underlings by no means exhibit initiative. The Yeerks there can have hated us. yet they have been scared of Visser Three. -- web page 154-5 -- And for a few reason, this makes me reflect on typhoon soldiers in superstar Wars. threat the overlord's wrath, or take out the invaders? notwithstanding i need to name out the illogical nature in their addiction, specifically, how George Edelman again on web page fifty seven or so says that the oatmeal alterations the Yeerk's mind stem in order that they by no means want Kandrona back and worse yet, by no means need to go away the host body. i will
